EMPLOYMENT

Summer Technology Intern **Emerson Electric** **Summer 2017**

- I interned at Emerson Automation Solutions, a division of Emerson Electric, as a Summer Technology Intern during the summer break before freshman year of college.
- As a part of my internship, I developed an Engineer Visit/Appointment Tracking System using PHP, CSS, JavaScript, SQL and the Twitter Bootstrap Framework.
- Also deployed the website to a server via remote access.

Mumbai, India.

EDUCATION

Dallas-Fort Worth Area, TX **University of Texas at Arlington** **Fall 2017 – May 2021**

- Bachelors in Computer Science Engineering with a Minor in Business. [Incoming Freshman]
- Received the Maverick Academic Scholarship worth $5000 per year and an Out of State tuition surcharge waiver.
- Accepted to the Honors College.

TECHNICAL EXPERIENCE

Projects

- **Employee Appointment Tracker:** (June 2017) (Individually Developed) Monitors Appointment/Meetings of each individual employee as well as of a group by extracting data from user uploaded .csv files exported from Outlook Calendar. Was built as a part of my internship at Emerson Electric. Also built an user authentication and file upload system for the tracker.
  Languages: PHP, HTML, CSS, JavaScript and Bootstrap.
- **Youtube Activity and Recommendation Assistant:** (July 2017 -) (Co-Developed) Observes the activity of a Youtube user's account, provides statistics and recommends the user Youtube channels which may possibly suit his interests using the Youtube API. Currently still in development. Languages: PHP, HTML, CSS, JavaScript and Bootstrap.

Languages and Technologies

- Proficient: C++, Java, PHP, HTML, CSS, SQL
- Familiar: JavaScript, Python, BASIC
- Frameworks and Technologies: Bootstrap, MySQL, PostgreSQL, Django
